

WHAT IS RIPPLE EFFECT LEADERSHIP?

Mission: Investing in people of influence to have a positive impact in their relational environments, whole communities, and world.

We believe every individual has a dynamic influence on their family, workplace, community and world.

As a ripple is created by the impact of one water drop; so the passion, attitude, values, and beliefs of our employees ripple outward into work environments. Every interaction we have leaves either a positive or negative influence on those we encounter.

Ripple Effect Leadership is committed to help employees understand the vital role they play in organizational success by understanding their personal ripple effect.
